

ANTI-GERM[®] PRATIC NF

Pre and Post milking chlorhexidine based product for teat disinfectant

PURPOSE

Anti-Germ[®] PRATIC NF is a ready to use liquid disinfectant, designed for pre and post teat treatment by automatic robot spraying.

Anti-Germ[®] PRATIC NF could also be use by manual spraying or with a soaker cup

For after milking application, teats rinsing is not needed. The teats must be washed before the next milking.

For before milking application, teats need to be wiped.

ADVANTAGES

- Efficient in 1-minute contact time on bacteria present on teats (EN1656)
- Contains cosmetic agents, softeners and moisturizers
- Easy and economic to use
- Environment friendly
- Could be use in organic farming

COMPONENTS

- Chlorhexidine Digluconate (N° CAS : 18472-51-0) : 3 g/kg

PHYSICOCHEMICAL PROPERTIES (20°C)

Aspect	Pink Limpid Liquid
pH in ready to use solution:	≈ 5.7
Density at 20°C:	≈ 1,02 g/cm ³
Gel Temperature:	< -5°C

REGLEMENTATION
